CATALOG NO. 63

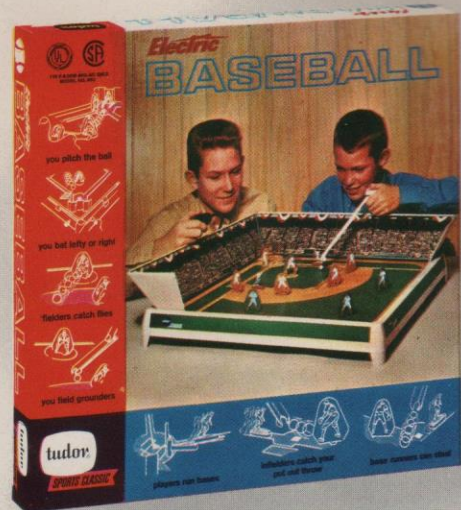

SPORTS CLASSIC

Electric

baseball

No other baseball game captures so completely the "feel" of America's national pastime! Actually duplicates every diamond play from the first batter-up to the last put-out! Even the grandstand shows a real World Series crowd.

- The lad pictured is using Tudor's exclusive pistol-grip "Pitcher-Fielder". It throws curves, fast balls, slow balls, fields grounders, makes put-outs!
- Fielders catch flies and thrown balls, make double plays. Every man on the team is **different**, strategically shiftable, and shown in characteristic playing stance.
- Players bat lefty or righty, — hit home runs, bunts, sacrifice flies, etc. A flick of the switch sends base runners racing around the "Isopad" mounted infield running out hits, stealing and scoring!
- The full-color display box is your best salesman. Not only does it picture the game in use but it illustrates **action playing features** that clinch many sales!

Tru-action® Electric sports car race

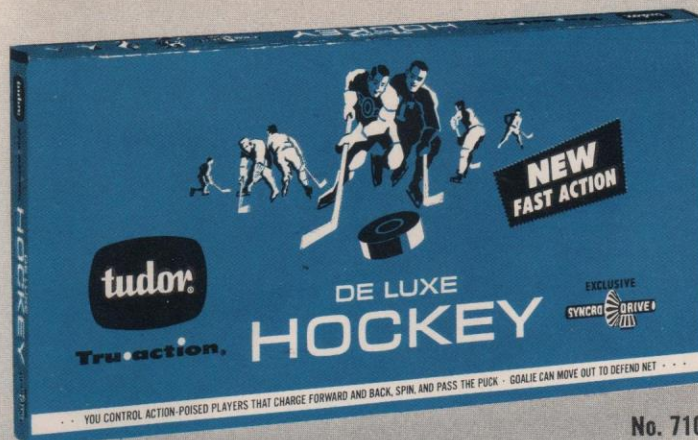

Watch 'em start out all even, whiz around tricky hairpin curves suddenly stall with victory in sight, collide at cross roads, take wrong turns to speed away from the finish line!

- That's the fascination of this game: the last can be first, cars that seem to be winning run into trouble, slow starters spurt ahead — everything happens as they speed cross-country on this colorful, unpredictable rally course!

- Game includes four sports cars, each with interchangeable chassis.

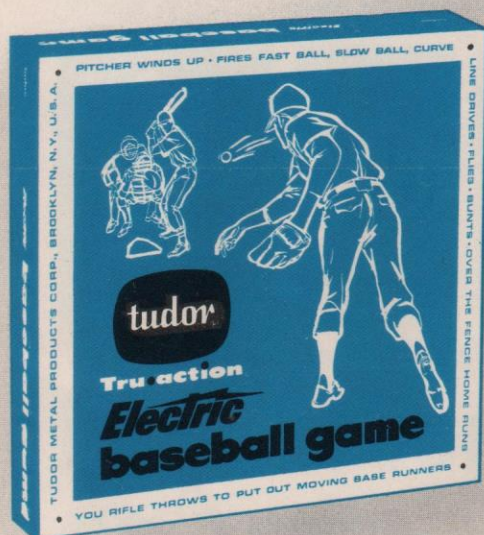

t that make hockey one of the
enacted with uncanny fidelity in

- The players push, pull and twist levers to whirl the realistic rinkmen over the ice — shooting, passing, stealing and “freezing” the puck. Goalies dash out of their nets making sensational “saves”, then passing the puck downrink.
- Tudor hockey can be played with almost the speed of real hockey. Every man responds instantly because exclusive “Synchro-Drive” beveled gears eliminate time-lag!
- The deeply recessed rink keeps the puck in action — the dent-proof plastic curves permit planned strategy.
- The rink is mar-resistant and firmly anchored on a sturdy steel frame to remain perfectly aligned. Hockey players are not just flat metal but precision-angled to permit better puck control. All 12 players insert quickly, play instantly.
- Sales appeal added with photographically-reproduced arena.
- The dynamically-designed package reflects the high quality of the game within.

Tru-action® Electric track and field meet

Stage your own Olympics! 19 athletes compete in many track and field events.

- **RACES** — Individual racers plus four relay race teams of four men each; 16 running figures race on the improved metal racing surface for better-than-ever performance. Race distances are 100-yd. dash, 220-yd., 440-yd. and mile.
- **POLE VAULTING** — A most ingenious pole vaulter, controlled by players, is made to vault higher and higher as he tries to clear the adjustable cross bar.
- **SHOT PUTTING** — How far can the brawny shot-putter hurl the magnetic shot? That depends on the skill of the player's hand on the control lever.
- **JAVELIN THROWING** — It takes skill and strength to throw a real javelin. In this Tudor game the operator's skill determines where the magnetic-tipped javelin lands.

mickey mouse *Electric* treasure hunt

Originated by Walt Disney for young adventurers!

- This really new kind of game combines the excitement of a race and chase in Tudor's first electric progression game.
- Four treasure-hunting ships are captained by Mickey Mouse, Donald Duck, Pluto, and Goofy. They sail in search of gold while eluding Captain Hook's pirate ship.
- The unique stop-and-start action of this game provides exciting fun for youngsters 5 to 9. Winner is unpredictable each time.
- An innovation in Tudor games — the ships sail on transparent vacuum-formed plastic that protects the beautifully-designed routes. Included in the attractive Disney-Decorated Box are figures of Mickey Mouse, Donald Duck, Pluto, Goofy, their four ships, Captain Hook and his ship, and stacks of simulated gold coins.
