The National ELECTRIC FOOTBALL Gane Nuseum

In 2017, the authors of **The Unforgettable Buzz** published ***The Electric Football WISHBOOK***.

It is a compilation of Christmas Wishbook Catalog pages from 1955 - 1988.

In explaining why, they only went to 1988 it is because

- ***“the 1988 Sears page is significant because it marked the last appearance of a Brooklyn-made Tudor Electric Football game in a Christmas Catalog.”*** - *The Electric Football WISHBOOK, Introduction, page 1.*

Electric Football Games continued to appear in the Wishbook pages, some years only in the Sears Wishbooks and some years only in the JC Penney Wishbooks.

The games during this period were the ones made by Superior Toys and later Miggle Toys. The only one not a **Tudor Games® Electric Football** game was one made by **Playtime** in 1992. It is the “rare” unlicensed ABC Monday Night Football Electric Football game - the first battery-operated electric football game.

In 2007, Miggle Toys Lost the license to produce NFL Electric Football Games.

Its replacement was a game made by Excalibur Electronics® and called NFL Vibrating Football. It was featured in a JC Penney Christmas Clearance Catalog with an original retail of \$100 and sold for \$49.99

I far as I know it was only manufactured for one year, but s smaller, generic version was sold for several more years by “Toys R Us under its Pavillion Games brand.

Meanwhile, Miggle Toys was celebrating 2007 as the 60th Anniversary of ELECTRIC FOOTBALL and continued to produce games but with an expanded line of Collegiate licensed games and teams.

This continued through 2011 until the company was sold in 2012.

THE Electric Football **WISHBOOK**

Continued - Sports Game Wishbook Catalog Pages 1989 - 2006

ELECTRIC FOOTBALL has had a long and storied life. For the most part, Christmas has always been the time of year when there seems to be a renewed interest in the game and hobby by people who long for the nostalgia of the game and the memories it evokes of their childhood. For many those are fond memories and unfortunately for some those memories are not as fond.

2027 will be celebrated as the 80th Anniversary of the game. It is still being manufactured by a company called Tudor Games and for the first time the company is owned by someone who grew up with the game and has been an avid player of the game for many years.

Advances in 3D printing technology have led to a better-quality game with figures that are much more detailed , bases that perform better than ever and an overall better “game day experience.”

Although not as inspiring as the original “Electric Football WISHBOOK”, I hope you will enjoy this small trip down memory lane and maybe be inspired to explore the game that is still being played today.
